15, February 1990

Dear Alumnus:

It is my sad duty to report the passing of Dean Emeritus Henry Kamphoefner on Wednesday afternoon, February 14.

As founding Dean of the School of Design, Dean Kamphoefner influenced generations of architects, landscape architects, product and visual designers now practicing throughout the world. Each of his students hold vivid memories of the Dean's relentless pursuit of quality for the School and all its members. For those of us privileged to know him, we will never forget Henry Kamphoefner.

Shortly before Dean Kamphoefner died, the faculty voted unanimously to name the addition to the School of Design completed in 1978 Kamphoefner Hall. Our recommendation has been forwarded to the University administration for action.

There will be a memorial ceremony in Dean Kamphoefner's honor at the School of Design later this spring, and a memorial fund has been established in his memory. Announcements will be sent when the date and time of the ceremony have been determined.

Regards,

A handwritten signature in black ink, appearing to read "Tom Regan", with a long horizontal line extending to the right.

Tom Regan
Dean
